My name is Mohammad. I had the great blessing, to have received spiritual guidance and counselling from Rose. I was trying to understand how and why I got to where I was standing. I was looking for a way to repair and mend some issues in my life. I was looking for permanent positive change. I am a Reiki Practitioner, and have an affinity for natural and spiritual healing.

Rose, in her personal and specific manner, recognized, identified and addressed the various blocks and challenges in my path. She gave me direct relevant insight into how and why I was experiencing my pain and unnecessary discomfort. She described my blockages in their most raw pure form. Then, with guided healing and meditation, she was inspired to offer me a way through. I have gained new awareness and understanding, as a direct result of Rose's spiritual coaching and healing.

I am very honoured and so very grateful for the healing, new found self-awareness and the connection to Spirit.

Thank you.

Love Mo
