When I arrived on Catharine Street I approached the room for my session with Rose and I could feel her LOVE from 6 feet away. Right then and there I knew I found the woman that would become very special to me. In that room I found my Spiritual Teacher. Rose is a beautiful kind woman with a gentle spiritual approach.

Over a period of time a close professional bond has grown and she has led me down my spiritual path and awakening. I have learned hidden secrets about myself, some of which were there all along but with no one to light the way and others that have awakened that would have been unreachable to me on my own.

In four (4) months I was able to achieve knowledge and understanding that I am told takes people years to achieve.

Rose is a highly educated spiritual teacher!

I would highly recommend her to anyone just looking for a reading, wishing to do in depth healing work on themselves or people interested in taking some of the courses she offers.

In either way you choose the knowledge is precious and has greatly enhanced my life!

Love and Light
