

ARTHRITIS IS GONE!!!

QUANTUM HEALING HYPNOSIS AND PAST LIFE REGRESSION

TESTIMONIAL

JAN 18, 2015

In January 2015 I received this email from one of my clients and I wanted to share it with my readers 😊

Hi Rose.

I had a healing session with you in May, 2014, although the Past Life Regression OR Quantum Healing Hypnosis Session with you didn't turn out quite the way I had hoped, it opened my mind to many more possibilities than I ever imagined! I thought you might like to know that ever since our session I have NO MORE ARTHRITIS PAIN AT ALL!!!

I have had arthritis that was progressively worsening, taking pain medication almost daily and a little worried about my future. I have also noticed almost NO MORE BACK ISSUES; something that over my life I had many problems with. Now almost no problems and I LEARNED THAT with a lot of gardening over the summer. Something that used to ruin me! I have not done anything that would have helped me in these areas so it must be our session that has made the difference!

Thank You
