

I had an appointment with Rose in June 2012, and the experience truly changed my life. I felt extremely comfortable with her and her talents, and the outcome was one that I never expected. I received an Angel Reading and Crystal Healing, both of which gave me spiritual guidance, advice, and a new way of living. My heart has been healed and now feels spiritual guidance constantly around me.

I have always been spiritually connected to my faith and believing in good things happening to good people. I was so positively affected by my time with Rose, I have recommended her to many friends and coworkers. I went back three months later for a follow up and will continue to visit Rose to be in the presence of her wonderful gift.
